**ReneSola Ltd Announces Fourth Quarter and Full Year 2009 Results*****Company Achieves Record Quarterly and Full Year Product Shipment Volumes;  
Announces 62 MW Solar Module OEM Agreement***

**JIASHAN, China, March 10, 2010** – ReneSola Ltd (“ReneSola” or the “Company”) (NYSE: SOL) (AIM: SOLA), a leading global manufacturer of solar wafers and provider of solar module original equipment manufacturer (“OEM”) services, today announced its unaudited financial results for the fourth quarter and full year ended December 31, 2009.

**Fourth Quarter 2009 Financial and Operating Highlights**

- Total solar product shipments in Q4 2009 were a record 202.9 megawatts (“MW”), an increase of 38.1% from 146.9 MW in Q3 2009.
- Q4 2009 net revenues were US\$179.9 million, an increase of 27.7% from US\$140.9 million in Q3 2009.
- Q4 2009 gross profit was US\$4.9 million with a gross profit margin of 2.7%.
- Q4 2009 operating loss was US\$20.5 million with an operating margin of negative 11.4%.
- Q4 2009 net loss was US\$19.9 million, representing basic and diluted losses per share of US\$0.12, and basic and diluted losses per American depositary share (“ADS”) of US\$0.23.
- Excluding provisions against doubtful receivables, adjusted net loss was US\$5.3 million, representing basic and diluted losses per share of US\$0.03, and basic and diluted losses per ADS of US\$0.06.

**Full Year 2009 Financial and Operating Highlights**

- Total solar product shipments for the full year 2009 exceeded the Company’s guidance of 490 MW to 520 MW and were a record 526.6 MW, an increase of 50.4% from 350.1 MW in the full year 2008.
- Full year 2009 net revenues were US\$510.4 million, exceeding the Company’s guidance of US\$470 million to US\$500 million.
- Full year 2009 gross loss was US\$37.2 million and a gross profit margin of negative 7.3%.
- Full year 2009 operating loss was US\$90.6 million and an operating margin of negative 17.7%.
- Full year 2009 net loss was US\$63.7 million, representing basic and diluted losses per share of US\$0.43, and basic and diluted losses per ADS of US\$0.86.
- Excluding inventory write-downs and provisions against doubtful receivables, full year 2009 adjusted net profit was US\$22.2 million, representing basic earnings per share of US\$0.15, and basic earnings per ADS of US\$0.30.

	Three months ended 12/31/09	Three months ended 9/30/09	Three months ended 12/31/08
Net revenue (US\$000)	179,885	140,945	158,623
Gross profit (loss) (US\$000)	4,856	4,738	(130,139)
Gross margin (%)	2.7%	3.4%	(82.0%)
Operating profit (loss) (US\$000)	(20,476)	(7,774)	(143,126)
Foreign exchange loss (US\$000)	(495)	116	(1,052)
Profit (loss) for the period (US\$000)	(19,882)	(10,171)	(128,275)

“We were pleased with our record shipment volumes for the fourth quarter and full year 2009 despite a challenging macro environment in 2009,” said Li Xianshou, ReneSola’s chief executive officer. “Our cost-competitive solar wafer and integrated solar module OEM manufacturing platform has proven effective in driving revenue and volume growth while helping to diversify business risks and further strengthening our core wafer customer relationships.”

Charles Bai, ReneSola’s chief financial officer, added, “During the fourth quarter of 2009, we continued to improve our manufacturing efficiency while expanding our market share worldwide. We worked through the remainder of our high-cost raw materials and expect first quarter 2010 polysilicon cost to be below US\$60 per kilogram. We also reduced our average wafer processing cost significantly to approximately US\$0.34 per watt. With anticipated further cost reductions in each segment of our business and continuing strong demand for our products and services, we expect to return to profitability in the first quarter of 2010.”

### Results for the Fourth Quarter and Full Year 2009

#### *Product Shipments*

Total solar product shipments in Q4 2009 were 202.9 MW, an increase of 38.1% from 146.9 MW for Q3 2009, exceeding the Company’s guidance. Total solar wafer and module shipments were 187.4 MW and 14.6 MW, respectively, representing increases of 39.5% and 35.2%, respectively, from Q3 2009. For the full year 2009, total product shipments were 526.6 MW, representing an increase of 50.4% from 350.1 MW in the full year 2008.

#### *Net Revenues*

Net revenues for Q4 2009 were US\$179.9 million, an increase of 27.7% from US\$140.9 million for Q3 2009, exceeding the Company’s guidance. Net revenues for Q4 2008 were US\$158.6 million. For the full year 2009, ReneSola reported net revenues of US\$510.4 million, representing a decrease of 23.9% from US\$670.4 million in the full year 2008.

#### *Gross Profit (Loss)*

Gross profit for Q4 2009 was US\$4.9 million, compared to gross profit of US\$4.7 million in Q3 2009 and gross loss of US\$130.1 million in Q4 2008.

Gross loss for the full year 2009 was US\$37.2 million, compared to gross loss of US\$14.3 million in the full year 2008.

### *Operating Loss*

Total operating expenses for Q4 2009 were US\$25.3 million, an increase from US\$12.5 million in Q3 2009 and US\$13.0 million in Q4 2008. The sequential increase was primarily attributable to a provision of US\$14.6 million against doubtful receivables from Linzhou Zhongsheng Semiconductor (“Linzhou Zhongshen”) during the quarter. Total operating expenses for the full year 2009 were US\$53.3 million, an increase from US\$34.2 million in the full year 2008.

As previously announced, the Company sold its 49% equity interest in Linzhou Zhongsheng, a joint venture between the Company and Zhongsheng Steel Co. Ltd. (the “JV Partner”) to its JV Partner in September 2008 at a total consideration of RMB200 million (US\$29.3 million) under certain conditions. The agreement was amended in December 2008 stipulating that, of the total consideration payable to ReneSola, RMB40 million (US\$5.9 million) would be paid in cash and RMB160 million (US\$23.4 million) would be paid either as a credit through a discount to spot market price against future delivery of polysilicon from the JV, or in cash, at the Company’s discretion. However, Linzhou Zhongsheng continued to fail in its obligations to deliver feedstock and the Company has decided to take action to collect the receivables in cash. A provision has been made against the receivables.

Operating loss for Q4 2009 was US\$20.5 million, compared to operating losses of US\$7.8 million for Q3 2009 and US\$143.1 million in Q4 2008. Adjusted operating loss for Q4 2009 was US\$5.9 million excluding the provision for doubtful receivables.

Operating loss for the full year 2009 was US\$90.6 million, compared to US\$48.5 million in the full year 2008. Adjusted operating loss for the full year 2009 was US\$4.7 million excluding inventory write-downs and the provision for doubtful receivables. Operating margin for the full year 2009 was negative 17.7%, compared to negative 7.2% in the full year 2008.

### *Loss Before Income Tax*

Loss before income tax for Q4 2009 was US\$22.5 million, compared to losses of US\$11.5 million for Q3 2009 and US\$146.9 million in Q4 2008. Loss before income tax for full year 2009 was US\$99.7 million, compared to a loss of US\$56.5 million for full year 2008.

### *Taxation*

A tax benefit of approximately US\$2.6 million was recognized for Q4 2009, compared with tax benefits of US\$1.4 million in Q3 2009 and US\$18.3 million in Q4 2008. For the full year 2009, a tax benefit of US\$36.0 million was recognized, primarily resulting from inventory write-downs, up from US\$2.4 million in the full year 2008.

### *Net Loss Attributable to Holders of Ordinary Shares*

Net loss attributable to holders of ordinary shares for Q4 2009 was US\$19.9 million, compared to net losses attributable to holders of ordinary shares of US\$10.2 million in Q3 2009 and US\$128.3 million in Q4 2008. Adjusted net loss for Q4 2009 was US\$5.3 million.

Q4 2009 basic and diluted losses per share were US\$0.12, and basic and diluted losses per ADS were US\$0.23. Q3 2009 basic and diluted losses per share were US\$0.07, and basic and diluted losses per ADS were US\$0.14. One ADS is equivalent to two ordinary shares.

Net loss for the full year 2009 was US\$63.7 million, compared to net loss of US\$54.9 million in the full year 2008. Adjusted net profit for the full year 2009 was US\$22.2 million excluding inventory write-downs and the provision for doubtful receivables.

Full year 2009 basic and diluted losses per share were US\$0.43, and basic and diluted losses per ADS were US\$0.86. Full year 2008 basic and diluted losses per share were US\$0.43, and basic and diluted losses per ADS were US\$0.86.

### **Recent Business Developments**

#### *600 MW Solar Module OEM Agreement*

As announced on February 11, 2010, ReneSola signed an OEM agreement to provide 600 MW of solar modules to a major global solar company over a period of three years. According to the terms of the contract, the Company will provide 200 MW of solar modules annually for three years commencing in 2010.

#### *62 MW Solar Module OEM Agreement*

In addition to the above agreement, the Company has recently signed an additional OEM agreement to provide 62 MW of solar modules to a major global solar company during 2010.

CEO Li Xianshou commented, "Our two recent solar module OEM contracts represent important milestones for ReneSola as the company transitions into a leading global wafer company with expanded downstream OEM services. These contracts also demonstrate our ability to leverage our solid relationships with existing wafer customers to win additional OEM business."

#### *Sichuan Polysilicon Facility*

Phase I polysilicon trial production commenced in July 2009 and achieved production output of approximately 194 metric tonnes ("MT") in 2009, lower than previous estimates due to continuous system testing and trial runs. Production cost was higher than previously expected due to continuous trial runs, system testing, outsourced Trichlorosilane ("TCS") and minimal activated hydrogenation processes. With mechanical installation of TCS and hydrogenation equipment completed, trial production of integrated closed loop manufacturing for Phase I is expected in March 2010.

Phase II trial production commenced recently and will be incrementally integrated with Phase I. Full integration into the manufacturing system is expected within approximately four to five months. Once fully operational, the integrated closed loop manufacturing system is expected to reduce production costs to US\$40 per kilogram by the end of 2010. The Company expects polysilicon production output in 2010 to be in the range of 1,500 MT to 1,900 MT.

#### *Convertible Bond Repurchase*

During Q4 2009, the Company repurchased approximately US\$65.0 million (equivalent to RMB444.1 million) aggregate principal amount of its RMB 928,700,000 U.S. Dollar Settled 1.0% Convertible Bonds due March 26, 2012 (the "Bonds"), for a total consideration of approximately US\$64.3 million (equivalent to RMB439.3 million). The Company recognized a gain of approximately US\$2.64 million. As of December 31, 2009, the Company had approximately US\$32.5 million (equivalent to RMB221.7 million) of Bonds outstanding.

ReneSola may from time-to-time seek to make additional repurchases of its Bonds. Such repurchases, if any, will depend on prevailing market conditions, the Company's liquidity requirements and other factors.

## 2010 Outlook

The Company has witnessed robust market demand in the beginning of 2010, which it expects to remain through the first half of 2010, with stabilizing polysilicon prices and increased wafer spot pricing. For Q1 2010, ReneSola expects total solar product shipments in the range of 215 MW to 230 MW, revenues in the range of US\$195 million to US\$205 million and gross profit margin to be in the range of 16% to 18%. Although the Company anticipates solar wafer price declines in the range of 10% to 15% in the second half of 2010 due to increased competition and feed-in tariff cuts in international markets such as Germany, the Company maintains its full year 2010 total solar product shipment guidance to be in the range of 900 MW to 950 MW. The Company expects to be profitable with average gross profit margin in the range of 17% to 20% for the full year 2010.

## Conference Call Information

ReneSola's management will host an earnings conference call on Wednesday, March 10, 2010 at 8 am U.S. Eastern Standard Time / 9 pm Beijing/Hong Kong time / 1 pm Greenwich Mean Time.

Dial-in details for the earnings conference call are as follows:

U.S. / International: +1-617-614-3473  
United Kingdom: +44-207-365-8426  
Hong Kong: +852-3002-1672

Please dial in 10 minutes before the call is scheduled to begin and provide the passcode to join the call. The passcode is "ReneSola Call."

A replay of the conference call may be accessed by phone at the following number until March 17, 2010:

International: +1-617-801-6888  
Passcode: 81970616

Additionally, a live and archived webcast of the conference call will be available on the Investor Relations section of ReneSola's website at <http://www.renesola.com>.

## About ReneSola

ReneSola is a leading global manufacturer of solar wafers. Capitalizing on economies of scale, low cost production capabilities and technology innovations, ReneSola leverages its in-house virgin polysilicon and solar cell and module production capabilities to provide its customers with high-quality, cost-competitive solar wafer products and solar module OEM services. The company possesses a global network of suppliers and customers that include some of the leading global manufacturers of solar cells and modules. ReneSola's shares are traded on the New York Stock Exchange (NYSE: SOL) and the AIM of the London Stock Exchange (AIM: SOLA).

## Safe Harbor Statement

This press release contains statements that constitute "forward-looking" statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended, and as defined in the U.S. Private Securities Litigation Reform Act of 1995. Whenever you read a statement that is not simply a statement of historical fact (such as when we describe what we "believe," "expect" or "anticipate" will occur, what "will" or "could" happen, and other similar statements), you must remember that our expectations may not be correct, even though we believe that they are reasonable. We do not guarantee that the forward-looking statements will happen as described or that they will happen at all. Further information regarding risks and uncertainties that could cause actual results to differ materially from those in the forward-looking statements is included in our filings with the U.S. Securities and Exchange Commission, including our annual report on Form 20-F. We undertake no obligation, beyond that required by law, to update any forward-looking statement to reflect events or circumstances after the date on which the statement is made, even though our situation may change in the future.

## ReneSola Announces Management Appointments

*CFO to Become CSO;  
VP of International Corporate Finance and Corporate Communications to Serve as CFO;  
Company Appoints New VP of Finance and New VP of Wafer Sales*

**JIASHAN, China, March 10, 2010** -- ReneSola Ltd ("ReneSola" or the "Company") (NYSE:SOL) (AIM: SOLA), a leading global manufacturer of solar wafers and provider of solar module original equipment manufacturer ("OEM") services, today announced the following management appointments:

- Mr. Charles Bai, ReneSola's chief financial officer, has been appointed chief strategy officer;
- Ms. Julia Xu, ReneSola's vice president of international corporate finance and corporate communications, will succeed Mr. Bai as CFO;
- Mr. Henry Wang has been appointed vice president of finance;
- Mr. Stephen Huang has been appointed vice president of wafer sales.

All management appointments have been approved by the Company's Board of Directors and will take effect as of April 1, 2010.

Li Xianshou, ReneSola's chief executive officer, commented, "I am very pleased to announce several new updates to our management team. First, I would like to congratulate Charles on his move from CFO to CSO. Over the past four years, Charles has done an exceptional job overseeing and improving our financial management and internal controls while guiding us through our AIM and NYSE listings and leading our fund raising campaigns. In his new role as CSO, Charles will lead our strategic partnering initiatives by further developing and fostering relationships with global solar companies which will allow us to continue building upon our leading solar wafer and solar module OEM platform. Second, I am delighted that Julia will assume the role of CFO. Since joining ReneSola last year as vice president of international corporate finance and corporate communications, she has helped to strengthen our financial practice while becoming an integral part of our management team. Julia's in-depth understanding of ReneSola's business and extensive financial background will allow her to make a natural transition and I am very confident she will serve us well in her new role."

Regarding the newly hired vice presidents of finance and wafer sales, Mr. Li added, "It is my pleasure to announce the additions of Mr. Henry Wang and Mr. Stephen Huang to ReneSola's management team. Their excellent track records and deep industry experience are excellent additions to our team and we look forward to capitalizing on their capabilities to further drive our business initiatives."

Mr. Henry Wang has over 15 years of experience in financial services with extensive experience in accounting and mergers and acquisitions. Before joining ReneSola, Mr. Wang served as vice president of finance for Jiayu Logistic Group and financial controller for Expeditors International Incorporation. Mr. Wang holds CPA and CIA certifications and received his bachelor's degree from Wuhan University and MBA from Hong Kong Opening University.

Mr. Stephen Huang, a former reserve officer for the Taiwan Marine Corps, has over 18 years of managerial and sales experience, including 15 years in the solar industry. Prior to joining ReneSola, Mr. Huang served as project director for Taipei County Solar City. Mr. Huang received his bachelor's degree in Agricultural Economics from Taiwan University.

In addition to the management appointments announced above, Mr. Yuncai Wu will step down as vice president and serve solely as executive director. Dr. Mingde Wang has left the Company and will no longer serve as vice president of manufacturing.

#### **About ReneSola**

ReneSola is a leading global manufacturer of solar wafers. Capitalizing on economies of scale, low cost production capabilities and technology innovations, ReneSola leverages its in-house virgin polysilicon and solar cell and module production capabilities to provide its customers with high-quality, cost-competitive solar wafer products and solar module OEM services. The company possesses a global network of suppliers and customers that include some of the leading global manufacturers of solar cells and modules. ReneSola's shares are traded on the New York Stock Exchange (NYSE:SOL) and the AIM of the London Stock Exchange (AIM: SOLA).

#### **Safe Harbor Statement**

This press release contains statements that constitute "forward-looking" statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended, and as defined in the U.S. Private Securities Litigation Reform Act of 1995. Whenever you read a statement that is not simply a statement of historical fact (such as when we describe what we "believe," "expect" or "anticipate" will occur, what "will" or "could" happen, and other similar statements), you must remember that our expectations may not be correct, even though we believe that they are reasonable. We do not guarantee that the forward-looking statements will happen as described or that they will happen at all. Further information regarding risks and uncertainties that could cause actual results to differ materially from those in the forward-looking statements is included in our filings with the U.S. Securities and Exchange Commission, including our annual report on Form 20-F. We undertake no obligation, beyond that required by law, to update any forward-looking statement to reflect events or circumstances after the date on which the statement is made, even though our situation may change in the future.
